

**PRAIRIE STATESMAN® SWISS STONE PINE
(RFM-35)**

Pinus cembra 'Herman' (Family: Pinaceae)

Description: This five-needled cultivar is a very elegant, stately tree. Its lateral branches curve markedly upward and slightly inward, resulting in a narrowly-erect, strikingly-dense growth habit. Color of needles year-round is a rich emerald-green, with silver-blue overtones. Prairie Statesman® is extremely cold hardy and drought tolerant making this singularly outstanding specimen evergreen an excellent choice for use as a landscape specimen tree.

Hardiness: USDA hardiness zone 2b - 7

Mature Size: Height: 30', Spread: 15'

Form: Narrowly-erect form

Growth Rate: Slow to Moderate.

Foliage: Rich emerald-green needles with silvery-blue overtones year-round.

Texture: Medium to Fine

Flowers: Inconspicuous, no ornamental value.

Fruit: 3" violet-brown cone, which remain on the tree for 3 years. Cones never open.

Light Preference: Full sun.

Soil Preference: Needs well-drained soils.

Ornamental Attributes: Prairie Statesman® Swiss Stone Pine has outstanding perfectly symmetrical upright narrow form with a strikingly-dense growth habit.

Landscape Attributes: It has increased hardiness and drought tolerance. Resistant to most pests and diseases. Transplants very well and needs little pruning for a strong structure. It is recommended as a landscape specimen tree.

Comments: Originated as a seedling selection. Deer browsing can be an issue with this species.

Availability: Iseli Nursery, Oregon Pride Nurseries, Inc. (Available 2013), Sester Farms, Inc. (Available 2013)
